

Presentation
Of
C Language
Prepared
By
M.SAQIB NOOR

Loop:

- Repetition of time.
- Run variable's values in a specific time.

10th Application:

FOR LOOP:

```
#include<stdio.h>
main(){

    int t , s ,e ;

    printf("\n enter table no : ");
    scanf("%d" , &t);

    printf("\n enter Starting Point : ");
    scanf("%d" , &s);

    printf("\n enter Ending Point: ");
    scanf("%d" , &e);

    printf("\n Table of %d " ,t );

    for (int j =s; j <=e; j++ ){

        printf("\n %d * %d = %d " , t , j, t * j );

    }
```

```
printf("\n\n");  
    printf("\n\n");
```

```
for (int i = 10; i >= 5 ; i--){  
    printf("\n %d " , i);  
}
```

```
for (int i = 0; i <= 5 ; i++){  
    printf("\n %d " , i);  
}
```

```
}
```
